PROFILE

Experienced software developer with a strong foundation in front-end development, cloud infrastructure, and business operations across supply chain, logistics, and E-commerce. Combining technical expertise with creative problem-solving, I excel at designing innovative, user-centric solutions that drive business outcomes. Known for my proactive mindset and ability to think outside the box, I thrive in solving complex challenges and delivering high-impact results.

EXPERIENCE

2023 March -
Present

Front-end Software Developer Mashup Garage

- Led the redesign and optimization of a high-traffic banking platform, enhancing user engagement through advanced UI/UX strategies and performance improvements.
- Engineered and launched interactive features, leveraging responsive design and dynamic content to boost user satisfaction.
- Developed scalable, reusable UI components and design systems using modern tools, streamlining collaboration across teams.
- Collaborated with cross-functional teams to standardize development practices, ensuring a seamless, responsive experience across all device types.
- **Technology Stack:**
 - **Frontend:** React.js, Next.js, Tailwind CSS, Native CSS, SCSS, Framer Motion
 - **Backend:** Node.js, REST API, GraphQL
 - **Version Control:** Git, GitHub
 - **Other Tools:** Content Management System (CMS)

2022 June -
2023 March

Junior Cloud Engineer SENTI.AI

- Led the enhancement of company-wide templates for Senti.ai engineers, implementing Fastify (backend framework), Lit (frontend framework), and Terraform to streamline development processes and improve efficiency.
- Supported engineering tasks for a high-profile reimbursement project for a leading retail organization, focusing on bug fixes and participating in technical sprints to ensure timely deliverables.
- Contributed to the development of a finance processing portal utilized by thousands of staff and accounting personnel, leveraging Optical Character Recognition (OCR) to digitize over 50,000 files monthly, with technologies including Google Cloud Computing Services, Angular.js, Express.js, and Terraform.
- **Technology Stack:**
 - **Frontend:** React.js, Next.js, Angular.js, Tailwind CSS, Lit, Native CSS, SCSS
 - **Backend:** Node.js, Fastify, REST API
 - **Infrastructure & Tools:** Terraform, Git, GitLab

2021
November
-
2022
June

● **Frontend React.js Web Developer**
ANTERIORE SOLUTIONS

- Developed Playable.io, a blockchain web application that integrates decentralized finance, NFT technology, and traditional gaming markets, using React.js and Tailwind CSS to create an engaging user experience.
- Assisted in Quality Assurance testing by implementing fail-safe measures to address unforeseen use cases, ensuring the platform's reliability.
- Facilitated the transition of the project to a new blockchain infrastructure utilizing the NEAR Protocol and GraphQL, contributing to improved scalability and performance.
- **Technology Stack:**
 - **Frontend:** React.js, Tailwind CSS, Native CSS, SCSS
 - **Backend:** Node.js, REST API, GraphQL, Apollo
 - **Blockchain:** NEAR Protocol
 - **Version Control:** Git, Github

SOFT SKILLS

- Communication
- Problem-solving
- Collaboration
- Adaptability
- Time Management
- Attention to Detail
- Creativity
- Empathy
- Leadership

EDUCATION

DE LA SALLE UNIVERSITY - MANILA x ZARAGOZA LOGISTICS CENTER OF SPAIN (May - July 2021)
Diploma Course in Supply Chain and Logistics

DE LA SALLE UNIVERSITY - MANILA (2014 - 2019)
Bachelor of Science in Manufacturing Engineering and Management with Specialization in Mechatronics and Robotics Engineering
